

Professional Experience

- Assistant Professor, Bert S. Turner Department of Construction Management, Louisiana State University, 2020- Now.
 - Adjunct Assistant Professor, Division of Electrical and Computer Engineering, Louisiana State University, 2022- Now.
 - Senior Research and Development Engineer, Contour Crafting Corporation, California, 2017-2020.
 - Graduate Research Assistant, University of Southern California (USC), 2014-2018.
 - Graduate Teaching Assistant, Department of Computer Science, University of Southern California (USC), 2017-2018.
 - Graduate Research Assistant, Pennsylvania State University (Penn State), 2014.
 - Researcher at Construction Materials Institute, University of Tehran, 2013.
 - Graduate researcher at Concrete Technology and Durability Research Center, Amirkabir Univ. of Tech., 2010-2012.
-

Education

- Ph.D. in Civil Engineering, University of Southern California (USC), Los Angeles, United States.
Fall 2014- Fall 2018
 - [PhD thesis](#): *Developing techniques and test methods for mixture characterization and real-time quality monitoring for construction 3D printing (advisor: Professor Behrokh Khoshnevis)*
 - M.Sc. in Computer Science, University of Southern California (USC), Los Angeles, United States.
Spring 2015- Spring 2017
 - M.Sc. in Construction Engineering and Management, Amirkabir University of Technology, Iran.
Fall 2010 – Fall 2012 (Ranked 1st)
 - B.Sc. in Civil Engineering, Amirkabir University of Technology, Iran.
Fall 2006 – Summer 2010
-

Publications and Presentation

Books

- Ramezaniapour, A. A., **Kazemian, A.**, *Self-compacting concrete: Technology and Application*, ISBN: 978-964-463-514-4, Amirkabir University Press, 2013.
- (Book Chapter) **Kazemian, A.**, Yuan, X., Meier, R., Khoshnevis, B., Chapter title: "Performance-based laboratory testing of cementitious materials for construction-scale 3D printing", *3D concrete printing for Construction and building Applications*, Editors: Nematollahi, B., Sanjayan, J., Nazari, A., ISBN: 978-0-12-815481-6, Elsevier, February 2019 ([Link](#)).
- (Book Chapter) **Kazemian, A.**, Seylabi, E., Ekenel, M., Chapter title: "Construction 3D printing: challenges and opportunities for the construction industry", *Innovation in Construction - A practical guide to transforming the construction industry*, Editors: Ghaffar, S., Mullett, P., Pei, E., Springer Nature, 2021.

Papers

- (Conference paper) **Kazemian, A.**, Yuan, X., Meier, R., Cochran, E., Khoshnevis, B., “Construction-scale 3D Printing: Shape Stability of Fresh Printing Concrete”, ASME 2017 12th International Manufacturing Science and Engineering Conference (MSEC 2017), Los Angeles, California, 2017 ([Link](#)).
- (Conference paper) Ramezaniapour, A.A., **Kazemian, A.**, Nikravan, M., Moghaddam, M.A., “Influence of a low-activity slag and silica fume on the fresh properties and durability of high performance self-consolidating concrete”, International Conference on Sustainable Construction Materials & Technologies (SCMT3), Kyoto, Japan, 2013.
- (Conference paper) Ramezaniapour A.A., **Kazemian A.**, Redae E., Moghaddam M., “Studying effect of different parameters on slag cement mortar compressive strength using Taguchi method”, 10th International Congress on Advances in Civil Engineering, Ankara, Turkey, 2012.

Presentations

- (Invited Talk – selected as Darrell Elliott Lecture) Construction 3D Printing: Applications, Challenges, and Future Prospects, 31st Annual Louisiana Civil Engineering Conference, New Orleans, Dec 2021.
- (Oral presentation) Planetary Construction 3D Printing Using Lunar and Martian Indigenous Materials, ASCE Earth and Space 2022, Colorado.
- (Oral presentation) Concrete 3D Printing for Accelerated Bridge Construction: Possibilities and Challenges, ASTM ICAM conference, California, 2021.
- (Oral presentation) Life Cycle Environmental Impacts of 3D Printing in the Construction Sector: Perspectives and Research Opportunities, ASTM ICAM conference, California, 2021.
- (Invited Talk) Testing fresh and hardened properties of mixtures for construction 3D printing, ASTM Symposium on Standards Development for Cement and Concrete for Use in Additive Construction, December 2020.
- (Invited Talk) Real-time extrusion quality monitoring techniques for construction 3D printing, ACI Virtual Convention, October 2020.
- (Invited Talk) Cementitious materials for construction 3D printing, Pennsylvania State University, State College, August 2017.
- (Oral presentation) Computer vision for real-time quality monitoring of construction-scale 3D printing, Workshop on 3D printing of cement-based materials, The American Ceramic Society (cements division), Advances in Cement-based Materials., State College, June 2018.
- (Oral presentation) Performance-based laboratory testing of cementitious materials for construction-scale 3D printing, ACI Concrete Convention and Exposition, Concrete and Digital Fabrication workshop, Anaheim, 2017 ([Presentation video](#)).
- (Oral presentation) “Construction-scale 3D Printing: Shape Stability of Fresh Printing Concrete”, ASME 2017 12th International Manufacturing Science and Engineering Conference (MSEC 2017), Los Angeles, 2017.
- (Oral presentation) Investigation of fresh properties and durability of natural zeolite incorporated Eco-SCC”, 10th International Congress on Advances in Civil Engineering, Ankara, Turkey, 2012.
- (Oral presentation) Studying effect of different parameters on slag cement mortar compressive strength using Taguchi method, 10th International Congress on Advances in Civil Engineering, Ankara, Turkey, 2012.

Sponsored Projects

- Shared-control Tele-operation of Specialized Construction 3D Printing Robots for Lunar Infrastructure Construction, Outfitting, and Repair, Role: PI, Funding Agency: NASA Marshall Space Flight Center, 2022-2023.
- Fostering Transferable Skills for Future-Ready Extraterrestrial Construction Workforce via an Intelligent-Immersive Training Environment, Role: Senior Personnel, Funding Agency: National Science Foundation, 2022-2023.
- ISRU-based Planetary Construction 3D Printing for Lunar and Martian Infrastructure Development: Process Optimization and Automated Quality Control, Role: PI, Funding Agency: Louisiana Board of Regents, 2022-2025.

- Construction 3D Printing for Extraterrestrial Infrastructure Development Using Indigenous Materials, Role: PI, Funding Agency: Louisiana Space Grant (funded by NASA and Louisiana BOR), 2021–2022.
 - Automated Curing and Strength Monitoring of Sensor-Embedded 3D Printed Transportation Infrastructure, Role: PI, Funding Agency: TranSET (US Department of Transportation), 2022–2023.
 - Rebar-Free 3D Printing of Transportation Infrastructure, Role: PI, Funding Agency: TranSET (US Department of Transportation), 2021–2023.
 - Resilient 3D-Printed Civil Infrastructure with Ultra-High Performance Engineered Cementitious Composites (UHP-ECCs), Role: Co-PI, Funding Agency: TranSET (US Department of Transportation), 2021–2023.
 - Comparative Analysis of 3D Printed Bridge Construction in Louisiana, Role: Co-PI, Funding Agency: TranSET (US Department of Transportation), 2021–2023.
 - Robotic Construction on the Moon and Mars using 3D Printing and In-situ Resources: Mechanical Performance Evaluation, Role: PI, Funding Agency: Louisiana Space Grant (NASA EPSCoR), 2022–2023.
-

Research and Professional Activities

- Scientific Organizing Committee, Construction 3D Printing Symposium, ASTM International Conference on Additive Manufacturing (ICAM), 2021 and 2022.
 - Guest editor, Special issue “Industry 4.0: Additive Manufacturing Potentials in Providing Engineering Solution”, Results in Engineering Journal, Elsevier, 2021.
 - Member, Lunar Surface Innovation Consortium (LSIC), Excavation and Construction focus group, 2021.
 - Voting member of American Concrete Institute committee on “3D Printing with Cementitious Materials” (ACI 564).
 - Member of RILEM technical committee on “Digital Fabrication with cement-based materials”.
 - Reviewer for Automation in Construction (Elsevier), Journal of Materials in Civil Engineering (ASCE), Cement and Concrete Composites (Elsevier), Rapid Prototyping Journal (Emerald), Advances in Civil Engineering Materials (ASTM), Materials and Design (Elsevier), Construction and Building Materials (Elsevier), and Additive Manufacturing (Elsevier) journals, 2014- Now.
-

Teaching and Mentoring

- Instructor at Louisiana State University, “Advanced Construction Technologies- CM 4206”, Department of Construction Management, Spring 2021.
 - Instructor at Louisiana State University, “Life Cycle Assessment- CM 7303”, Department of Construction Management, Fall 2021.
 - Advisor and Mentor: PhD students: Ilerioluwa Giwa and Sara Miryousefi; Undergraduate researchers: Dharla Moore (Aerospace Eng.), Michael Martin and Eli Shaw (Computer Science), Marc Hebert (Mechanical Eng.).
 - Teaching Assistant at University of Southern California, “Artificial Intelligence- CSCI 561”, Computer Science Department, Fall 2017 and Spring 2018.
 - Teaching Assistant at University of Southern California, “Introduction to Civil Engineering Graphics- CE107”, Civil and Environmental Engineering Department, Spring 2014.
 - Teaching Assistant at University of Southern California, “Theory of Structures- CE358”, Civil and Environmental Engineering Department, Fall 2014 and Fall 2015.
 - Instructor at Azad University- Parand branch, Civil Engineering department, “Concrete Technology”, “Concrete Technology Laboratory”, and “Strength of Materials Laboratory” courses, Spring and Fall 2013.
-

Awards and Certificates

- OLC Online teaching certificate, earned by completing a 10-week training program and 4 elective courses on effective teaching, Online Learning Consortium, 2020.
- Featured Research Assistant of Civil and Environmental Engineering Department, University of Southern California, May 2016.
- Ranked **1st** in the Construction Engineering and Management M.Sc. program and awarded by the head of the Civil and Environmental Engineering Department, Grade: 18.51/20, Amirkabir University of Technology, Tehran, Iran, 2012.
- Ranked **1st** in the 2nd National Concrete Competition, Structural Lightweight Concrete, Tehran, Iran, 2008.
- Won the **Best Graduate Thesis** award, Iranian Concrete Institute (ICI), 2013. (*Granted annually by ICI to the best M.Sc. thesis in the field of concrete technology across the nation*)
- Won **Best M.Sc. Thesis** award, Amirkabir University of Technology, 2013. (*Awarded annually by dean of the university to 10 outstanding M.Sc. theses out of thousands within the university*)
- Engineer-In-Training (EIT), California Board for Professional Engineers, Land Surveyors and Geologists, September 2016.
